Using your SATs Revision Booklet

The following weekly timetables have been produced to help you focus your revision and get the most out of your homework. It will consolidate the work being taught that week in class.

We have suggested that you split your revision into six separate 30 minute slots over a seven day period. It's up to you to decide when. If you do more than one 30 minute slot in a day, make sure there is at least an hour break between them. If you manage the six sessions and you get an adult to sign the weekly sheet for all 15 weeks, you will receive a special prize.

Above all, don't worry!

Enjoy the revision.
